6. Description of content: From 30 December 2022, Nutri-Grade beverages sold in Singapore in the pre-packaged form or from non-customisable automated beverage dispensers have been subjected to labelling requirements and advertising prohibitions. The Ministry of Health (MOH) and Health Promotion Board (HPB) propose to extend these measures to freshly prepared beverages (including those dispensed from customisable automated beverage dispensers) for sale in specified settings in Singapore. For Nutri-Grade beverages which are pre-packaged or dispensed from machines, additional labelling requirements will also be introduced.

7.	<p>Objective and rationale, including the nature of urgent problems where applicable: High sugar intake is linked to increased risk of obesity and diabetes. The World Health Organization (WHO) has called on countries to take action to reduce individuals' intake of sugar to as low as possible, stating that "nutritionally, people do not need any sugar in their diet". Collectively, the existing and additional measures aim to (a) help consumers identify beverages that are higher in sugar and saturated fat and make more informed, healthier choices, (b) reduce the influence of advertising on consumer preferences, and (c) spur industry reformulation.; Consumer information, labelling; Protection of human health or safety</p>
